

Expression of Interest: Volunteering

Thank you for taking an interest in volunteering at Skylight.

Skylight Mental Health (Skylight) was founded by concerned friends and relatives of people experiencing mental illness who volunteered their time to establish the organisation. Skylight recognises the significant contribution of volunteers within the community and values the involvement of volunteers at Skylight in “seeing mental health differently” through roles which initiate, deliver and enhance the broad range of Skylight services and programs and support Skylight to deliver upon strategic goals.

Volunteer opportunities at Skylight become available when there is an identified need. This can occur through a vacancy left by an existing volunteer, a special project is undertaken or a where a new role is developed through the skills and experience offered by interested volunteer applicants. All volunteering roles at Skylight require SAPOL National Police Clearance and have a Role Description which outlines the purpose, requirements and duties of the role and seek to match suitable individuals with the duties to be carried out.
